BERLIN IS HEARD FROM

German Admiral at Manila Changes His Course of Action.

PENDING DISPUTES WILL BE SETTLED AFTER THE WAR.

Hong Kong, July 20.—Special—Advices from Manila state that the trouble between Admirals Dewey and Diederichs is at an end. The latter has received orders from Berlin to allow the American commander to have his own way, meantime keeping watch and making note of all that is done so that a settlement of recent disputes may be made at the close of the war. This is satisfactory to Dewey, who is relieved of the possible necessity of punishing the German admiral in the midst of his operations against the Spaniards.

Washington, July 20.—Special—The state department denies that any written disclaimer has been sent to the government by Germany of the acts of her admiral in the Philippines. It is stated, however, that the German ambassador here has given a definite and verbal assurance of the friendliness of his government. It has been expressly denied that Germany has ulterior designs in the Philippines.

A Reckless Correspondent.

Washington, July 20.—Special—Sylvester Scovel, the war correspondent in Cuba who slapped Gen. Shafter's face at the flag-raising in Santiago, is the man whose life was saved several months ago by the intervention of congress, the president and Consul General Lee. Scovel was a prisoner in the hands of the Spaniards, and was under sentence of death as a spy. He is a reckless fellow and insane in his quest for notoriety. Gen. Shafter might have ordered his trial by drum-head court martial and had him shot promptly, but generously ordered that he be sent to the United States, where will be tried and punished. The man receives no sympathy among either newspaper men or army officers, and will probably be severely dealt with.

Cubans Cannot be Trusted.

Washington, July 20.—Special—The refusal of Garcia to be present at the raising of the American flag in Santiago creates no uneasiness here. He has all along been anxious to dictate the methods to be pursued by the American army of invasion, and has been piqued at the fact that he has not been permitted to do so. No material help is expected from the Cubans in any direction. They have the taint of Spanish blood, and can never be trusted out of sight. It would surprise no one here if they were fighting side by side with their oppressors within a month, for venality and treachery are their birthright.

Famine Doing Its Work.

Washington, July 20.—Special—The blockade of Cuban ports is having as great an influence towards the overthrow of Spanish power in Cuba as the operations of our army. Reports are to the effect that the garrisons at Matanzas, Cardenas and Cienfuegos are on the verge of starvation, and will be forced to capitulate soon unless they receive supplies. The soldiers are not in condition for fighting, and could not successfully defend their positions against attack by the Americans. The belief is general that they will surrender with little resistance.

Bombardment of Manzanillo.

Havana, July 20.—Special—Thirty-five hundred projectiles were hurled into Manzanillo during the recent bombardment, which lasted four hours. Three steamers were destroyed, and the gunboat Sentinela burned. Three Spaniards were killed, and fourteen wounded.

Combating Yellow Fever.

Washington, July 22.—Special—The medical and war department are making all possible efforts to check the yellow fever epidemic at Santiago. Immune doctors and nurses are being gathered from all over the country and sent to the scene.

Cervera's Fleet.

Norfolk, Va., July 20.—Special—The superintendent of the wreckers sent to Cuba to raise the sunken Spanish warships writes that he can save the Colon, Vizcaya, and Maria Teresa, but fears the Oquendo will be lost.

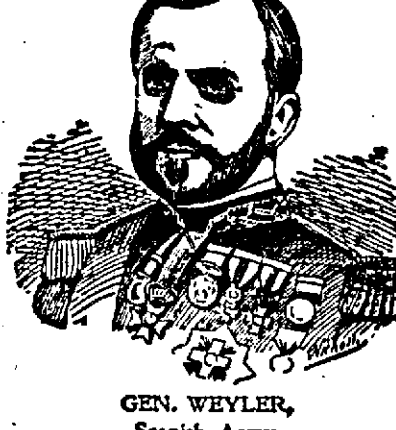

CAPT. GEN. BLANCO,
Governor General of Cuba.

MAJ. GEN. JOHN R. BROOKE,
United States Army.

Sur. Gen. J. R. Tryon, U. S. Navy.

GEN. WEYLER,
Spanish Army.

Wisconsin Men Sail.

Charleston, S. C., July 20.—Special—Once more are the Wisconsin regiments under orders to go on board ship for Porto Rico. The troops are ordered to be on board at six o'clock this afternoon, and the entire company baggage and cooking outfits are to be on by noon. If the orders are not countermanded the transports will sail with the high tide tonight.

Color Sergeant Massey, of Co. H, Third regiment, has been notified of his appointment as adjutant of the second battalion vice Lieut. Clough, who resigned on account of ill health.

Private J. W. Colville, of Co. H, Second regiment, is dead from typhoid fever.

Charleston, July 20.—Special—Orders were issued today for the embarkation of the troops which will probably sail late this afternoon. Gen. Wilson and staff, Gen. Miles and staff, and Gen. Stone and staff, sail on the Grand Duchesse.

May Surrender Without a Blow.

Washington, July 20.—Special—Porto Rico may surrender without a blow. The war department will send such an overwhelming force that resistance on the part of the Spaniards will be futile. If however the Americans meet any opposition it may be only a brief, desperate stand for honor's sake. In any event it is not thought the surrender will be deferred long after Miles arrives.

Brooke at Chattanooga.

Chattanooga, July 20.—Special—Gen. Brooke arrived from Washington this morning and is now in consultation with Gens. Wade and Sheridan. Brooke will soon designate the regiments to accompany him to Porto Rico.

No Propositions For Peace.

Washington, July 20.—Special—Secretary Day says no official information has been received at the state department up to noon in regard to the report from Madrid that the Spanish would sue for peace.

BEHEADED BY A REAPER DOG KILLS A CHILD

Horrible Accident On a Farm Near Sun Prairie Resulting In Death.

Madison, July 12.—[Special]—A horrible accident occurred on the farm of Isaac Bradley, four miles from Sun Prairie, by which his little two and one-half year old girl had her head cut off by a reaper. Bradley was cutting grain and his first intimation of the accident was when he felt the shaking of the reaper as it passed over the child.

COULD NOT PEDAL ON SUNDAY

Orion Sutherland Was Disabled and Could Not Enter the Road Race.

Ex-Alderman Orion Sutherland, of this city, did not take part in the country road race that was given by Chicago cyclists on last Sunday over the Aurora-Geneva course. While on his way to the Windy City Mr. Sutherland's wheel struck an obstacle on the road and he was thrown violently to the ground, injuring his knee so that he was unable to pedal with any speed. He is a strong rider, and there is little doubt but he would have made a good showing had he entered.

Vicious Brute at Neillsville Fatally Mutilates the Child of Mr. and Mrs. Schiller.

Neillsville, July 20.—[Special]—A furious dog attacked and badly mangled a child of Mr. and Mrs. Jacob Schiller, biting its neck and face in a horrible manner. The child cannot recover. The dog also attacked and bit James Campbell, who succeeded in killing it.

ARE HAVING A GOOD TIME

Dentists Are Enjoying Themselves at the Madison Convention.

Janesville dentists who are now in Madison are having a right royal good time of it. Yesterday afternoon at 2 o'clock the twenty-eighth annual meeting of the Wisconsin State Dental society opened in the assembly chamber. The sessions will continue for three days, and from present indications bid fair to be well attended. A special session was held last evening to listen to Dr. A. T. Holbrook of Milwaukee, a brilliant young surgeon, well known on "The Logical Relation of Dentistry to Medicine." Wednesday and Thursday forenoons were devoted to clinics.

READY FOR PORTO RICO

Expedition Is Now on the Way to Its Destination.

GEN. MILES WILL HAVE A LARGE FORCE AT HIS COMMAND.

Washington, July 20.—Special—The organization of the Porto Rico expedition is proceeding rapidly, but the war department officials are mum regarding the details. It is believed that 5,000 to 7,000 men, mostly regulars, have sailed from Tampa, and will join Gen. Miles and the five thousand men he has off the coast of Cuba. Three thousand men have sailed or are ready to sail from Charleston. Gen. Miles has not yet left Guantanamo bay, and may not do so until the reinforcements reach him. The steamer Gussie left Tampa yesterday with fully equipped supply trains for the Randolph brigade, the artillery and First regiment, District of Columbia volunteers.

Rioting in Porto Rico.

New York, July 20.—Special—A St. Thomas special says: Serious riots, resulting in many deaths, occurred at Mayaguez, Porto Rico. The fighting occurred between Spanish sympathizers and persons who they accused of being friendly to America, and intending to aid Miles' army. Before the rioting ended nine were killed and scores wounded.

Good Work by Gunboats.

Key West, July 20.—Special—A report has reached here that the gunboats Hornet and Wampatuck sunk three Spanish gunboats off the Isle of Pines three weeks ago, and later cut the cable laid by Spaniards.

Wants to Invade Spain.

New York, July 20.—Special—A Journal Washington special says: Gen. Miles is urging the president to allow him to lead the army of invasion to Spain after the conquest of Porto Rico.

A Groundless Fear.

London, July 20.—Special—A Gibraltar dispatch from the Spanish Trans-Atlantic Steamship company fears that Watson's fleet is distributing its steamers among foreign ports.

No Disagreement.

Washington, July 20.—Special—Secretary Long denies that contention has arisen between Shafter and Sampson over the disposition of the Spanish vessels in Santiago harbor.

Shirks Responsibility.

New York, July 20.—Special—A Madrid dispatch says: The cabinet unanimously agreed to seek peace. The responsibility for the capitulation was left to Blanco and Toral solely.

Going to Fernandina.

Jacksonville July 22.—Special—Troops remaining at Tampa will be removed at once to Fernandina. The Thirty-second Michigan is now on the way to Fernandina.

Peace Terms.

London, July 20.—Special—The British ambassador at Madrid has been fully informed of the terms upon which the United States is ready to make peace.

Blockade of Porto Rico.

Washington, July 20.—Special—A proclamation will be issued shortly extending the blockade now confined to San Juan to the entire coast line of Porto Rico.

A Near Possibility.

Norfolk, July 20.—Special—An army officer of wide experience makes the startling prediction that we shall be fighting the Cubans within two weeks.

Wounded Arrive.

New York, July 20.—Special—The transport Solace with wounded from Santiago arrived this morning.

CHARGES DISPROVED BY THE RECORDS

MORE OF A. R. HALL'S BALDER-
DASH FALLS FLAT.

Expenses Thousands of Dollars a Year
Less Than in Previous Years—Supt.
Scott's Figures—La Follette's
Chief Lieutenant Convicted of Jug-
gling With Facts.

The Milwaukee Evening Wisconsin
disproves the charges made by Assem-
blyman Hall as follows:

"The Evening Wisconsin has heretofore paid but little attention to the charges made by alleged reformers to the effect that the present republican state administration is extravagant. It has not done this because it has believed that the charges were false, and either made ignorantly or with an intention to mislead. Latterly, however, A. R. Hall, of Dunn county, who seems to be conducting the campaign of abuse against Governor Scofield, has taken to being specific with his figures, and these figures, as they are misleading, deserve some attention.

"The chief charge made by Mr. Hall is that there is a heavy increase in the expenditures of the office of superintendent of public property, who has charge of all the labor about the capitol, and has entire charge of the state property, including the capitol building, grounds, executive residence, etc.

Hall's Guilty Knowledge.

Concerning what Mr. Hall has to say about increased expenditures of the present administration for clerk hire, he knows much better than the people he is trying to mislead, that Gov. Scofield has no more control over the clerks employed in the departments of the other state officers than has any other officer of Wisconsin. This is referred to for the reason that Mr. Hall is directing his abuse at Gov. Scofield, and trying to make it appear that because there is a slight increase in the expenditure for clerk hire, Gov. Scofield is to blame for it.

It should be recalled, to begin with, and every intelligent person knows or should know that the cost of administering the state government in Wisconsin as well as in any other state in the union, is steadily increasing. Not only increasing in the aggregate amount, but in the majority of the states, the per capita cost shows a steady increase.

Mr. Hall and his associate reformers would give the impression that because there is an increase for 1897 and 1898 over 1895 and 1896, or any other previous two years, that it denotes great extravagance. Mr. Hall of course knows that it does not indicate extravagance, but he hopes to make the public believe that it does, and in this way accomplish his avowed purpose of defeating the re-nomination of Gov. Scofield.

What Records Show.

The office of superintendent of public property is filled by appointment by Governor Scofield, and it is through this office that the chief expenditures over which the governor has control are made. The superintendent employs all the labor about the capitol and has charge of all the property as stated before. In order to ascertain how the expenditures through this department which Mr. Hall charges is extravagantly conducted, compared with former years, the Wisconsin asked Mr. Scott, the superintendent of public property, to make a statement for it of the expenditures for the term of the present administration, and for several biennial periods previous for purposes of comparison.

Mr. Scott has prepared these statements and makes affidavit that they are correct. The biennial period of 1895 lacks about three months yet of its completion, and the expenditures for those three months have been estimated. That there may be no doubt as to the fairness of the estimate for those three months, Mr. Scott says he is willing to give a bond that the actual expenditures shall not exceed his estimate.

"It should be explained further that there are some expenditures made through the office of the superintendent of public property over which that official really has no control. That is to say, the legislature makes special appropriation for stationery for all the state offices, and the expenditure for stationery is limited to this amount. It also makes special appropriations at times for the purchase of revised statutes, etc. These appropriations are given in a table below in their place, and are referred to here merely to explain their appearance in the table.

Supt. Scott's Figures.

"The biennial periods given below end on September 30, and it will be seen from the following table that the total expenditures of Supt. Scott's department for all purposes, including the special appropriations before mentioned, made by the legislature for stationery, the purchase of statutes, etc., for labor of all kinds, furniture

and the care of the state property—everything, in short, that is made through the superintendent's office, for the biennial period ending September 30, 1893—was \$201,074.45; for the biennial period ending September 30, 1894, \$202,154.84 for the biennial period ending September 30, 1895, \$193,704.20; for the biennial period ending September 30, 1896, \$180,922.21.

"It will be seen from these figures that the total expenditures of this department for the period covered by the present administration is more than \$13,000.00 less than for any of the previous biennial periods named. This, it should be understood, is not all a saving, as some of the former employees charged to the superintendent are now charged to their respective departments, under the new law.

"Taking from these total amounts of the appropriations made by the legislature each biennial year for special purposes, to be expended by the superintendent of public property, and the special appropriations made for stationery, and we find the total net expenditures of Mr. Scott's department for the biennial period named to be as follows:

1892.....\$173,623.91
1893.....191,394.10
1894.....177,214.69
1895.....166,371.36
showing a difference largely in favor of the present administration over the expenditures for a period of eight years.

A Conclusive Table.

"Below is given a table showing first the total expenditures through Superintendent Scott's office for all purposes; next the amount expended for stationery for the same period, then the amount appropriated for special purposes by the legislature, and next the amount expended through Mr. Scott's department. These are interesting figures for taxpayers. They show that notwithstanding the fact that during the present biennial period there has been an unusual large amount of work done upon state property, including the putting in of water mains in the capitol park, the laying of new walks and general improvement of the park, and also repairs and refurnishing of the executive residence, the total expenditures are less than during the other biennial periods given.

"An interesting thing in connection with the expenditures in this department is the fact that never before has so large an amount of time and money been put upon the capitol grounds at Madison and never before have these grounds looked so attractive.

Net Expenditures for the Biennial Periods.....	1892-93	1893-94	1894-95	1895-96	1896-97	1897-98
Special Appropriations by Legislature.....	\$17,000.00	\$17,000.00	\$17,000.00	\$17,000.00	\$17,000.00	\$17,000.00
Expenditures for Stationery.....	\$1,000.00	\$1,000.00	\$1,000.00	\$1,000.00	\$1,000.00	\$1,000.00
Total Expenditures for all Purposes.....	\$156,623.91	\$174,394.10	\$160,214.69	\$149,371.36	\$151,371.36	\$150,371.36
Biennial Period Ending Sept. 30.....	1892-93	1893-94	1894-95	1895-96	1896-97	1897-98

SUNDAYSCHOOL NOT DECAYING

Thus Asserts a Correspondent in Reply to

Editorial Hint.

Editors Gazette:—The article in yesterday's paper headed "Is the Sunday School Decaying?" deserves an answer. The writer does not care to enter into an argument or attempt to answer Edward Bok's anti-paenegyric, but will acknowledge he did say some good things, as well as many erroneous.

The Rev. Dr. Currier's articles in the New York Evangelist, the Advance, of Chicago, and many, if not all of the religious papers, have answered him fully. It is easy to criticize and tear down, but to build up is quite another thing. If Mr. Bok would suggest a way out of the difficulty as has President Harper of the University, by graduation and systematic study of the bible, his article, doubtless, would have done more good. However, if it stimulated others to more thoughtful consideration of the great responsibility and common sense application and love for the work, his assault will not have been amiss.

THE GAZETTE AGENCY,
W. W. CLARKE, Manager,
Milton, Wis., July 19, 1898.

The report that President L. D. Harvey has declined to be a candidate for the office of superintendent of public instruction before the republican state convention, is false. President Harvey desires the nomination, and personally authorized the writer to announce his candidacy in The Gazette. He is a Rock county product, head and shoulders above any other candidate for that office in point of ability and fitness, and this county will honor itself in sending to the state convention a delegation pledged to his support.

Miss Grace Miller, of Janesville, who graduated from Milton College in the class of '95, has accepted the position of instructor in English and Grammar in the college faculty made vacant by the resignation of Miss Brown. Miss Miller has proved an efficient teacher, and is a valuable addition to the instruction forces of the institution, as well as the social circles of the village.

A party of Fort Atkinson whistlers were here Sunday who had made a run from the Fort to Rockford and were so far on their way back. Despite their hundred mile ride on a red hot day they appeared to feel well and rode out of town in a lively manner.

Register of Deeds Rowe and County Treasurer Thorpe were in the village Friday. The county has no more competent or obliging officials than these two gentlemen.

D. P. Freeborn has an exhibit at the drug store some corn stalks nine feet high, which is an extraordinary growth for the middle of July.

Wilkes Martin, of Harmony, shook hands with Milton friends Friday. E. Richardson is having his mansion painted, an improvement that will be appreciated by our citizens as well as by his owner.

W. W. Clarke has a large quantity of old newspapers that he wishes to give away.

Fred Gould, of Lima, was in the village Saturday. Fred thinks Fricke the only efficient insurance commissioner Wisconsin ever had.

Hon. P. M. Green and wife leave this evening for Lake Okoboji, Iowa, to enjoy a three weeks' outing at that charming resort. They will occupy W. A. McHenry's cottage and have a royal good time.

Dr. J. M. Stillman and daughter, Miss Clara, have gone to Watch Hill, R. I., on the Atlantic, to spend several weeks breathing ocean air and absorbing salt water.

Mrs. Vankirk and her sister, Miss Alice McGregor, of Janesville, were the guests of Mrs. James Vincent, Saturday.

Miss M. M. Oakley, of the State Historical Library, Madison, was entertained by Mrs. W. W. Clarke, Saturday afternoon.

Lima Center.

Lima Center, Wis., July 10.—Mrs. Geo. Hill, of Whitewater, was buried in this cemetery Sunday. Miss McIntyre, of Davenport, Iowa, and Mrs. D'xon, of Whitewater, were callers at Mrs. Chapman's last Thursday. E. Finch and family, of Whitewater, spent Sunday at Amos Gould's. Mr. and Mrs. Wurster were called to Prairie Du Chien to attend the funeral of his sister. The sound of the threshing machine is again heard in the land. Mr. William Weaver, of Milton was at Mr. Fred Gould's.

Storekeeper Johnson has a new buggy which he declares shall not want for paint. A few of our best young people attended a party at Dr. Stetson's Monday evening. The Lima friends were made sad to read of the accident of Deacon and Mrs. Bingham, of Milton, and hope for their speedy recovery. Miss Laura Jones went last Thursday to spend a week with her cousin, Mrs. John Kachel, of Whitewater. E. C. Abbott, wife and daughter, of Johnstown, were over to see their mother, Mrs. Hiram Jones, last Sunday. Rev. Mr. Chapman, of Rutland, occupied the pulpit at the U. B. church Sunday. E. Bardor, of Millard, was a guest of his cousin, Sunday. Bert Collins of late makes frequent trips to Heart

Prairie presumably to see his brother. Mr. Mardock and wife and Will Rose and wife, of Janesville came up on their wheels Saturday night, and Sunday with relatives in this place. Miss Miss Truman and brother Harry, returned from their visit with Rockford friends.

Footville.

Footville, July 20.—During a thunder storm on last Sunday evening the residence of Charles Richards was struck by lightning. Beyond the loosening of some of the siding, two or three holes in the kitchen wall and the scare of the inmates no serious damage resulted. The rain fell for an hour and was very acceptable. The prospect of low rates from Chicago to Denver has given some of our people the western fever. Mr. and Mrs. W. H. Cory and Mr. and Mrs. M. M. Ross are ready to start as soon as the advertised fares touch b-d rock. Luella, the oldest daughter of Mr. and Mrs. Charles Hawk, had the misfortune to break her arm a few days ago by a fall from a pony. Dr. S. W. Lacey promptly reduced the fracture and the patient was doing well when another accident caused dislocation. This was attended to and it is hoped the improvement that has begun will be continued. Prof. A. G. Henry and Miss Chessie Smiley have been re-engaged by the local school board for the year 1898-99. The last year's work in both departments of the school was so commendable the action of the school board has called forth expressions of universal satisfaction. This community will be well represented at the Monona Lake assembly, the session of which opens today. The following, among others will attend: Dr. and Mrs. S. W. Lacey, Mr. and Mrs. R. W. Strang, Rev. and Mrs. J. J. Lugg, Mrs. E. Tellefson, Mrs. William Dean and family. On account of assembly there will be no services at the Methodist church next Sunday. Mrs. Charles Ourtis, of Janesville, has been visiting her sister, Mrs. Jacob Wiggins. Mrs. M. Owen, of Chicago, is enjoying her annual visit with friends in this neighborhood. Miss Kate Wiggins is home from Lake Geneva where she has been in attendance on the annual conference of Y. M. C. A. workers.

Miss Jessie Silvertown has returned from a visit of some weeks with friends at Burnett Junction. J. S. Hart was confined to bed by sickness for a day or two recently but has recovered. Mrs. Jacob Strang is spending a few days with her sister, Mrs. Mary Jeffris, of Janesville. Chas. Wright has joined the ever increasing host of wheelmen, and is happy in the possession of a new mount. Geo. Shaw and Will McNeill, two of our young men who are with Gen. Lee at Jacksonville, write very favorably of their new life.

Emerald Grove.

Emerald Grove, July 20.—A speaking contest under the auspices of the Y. P. S. O. E. will be held in the church on Friday evening of this week. The contestants are Misses Reid, Leola Lloyd, Edna Wright, Bessie Coulter and Lillie Westby. No admission will be charged. Misses G. Grace and Florence Tyley, of Chicago, are visiting at Mr. and Mrs. Henry Boone's. Arthur Barless came up from Chicago, Friday. He is not feeling well, and came home to recuperate. Mrs. O. A. Wright and daughter, Mrs. William Wright, visited relatives at Darien, last week. Farmers are in the midst of barley cutting. The crop is not up to expectation. Some rust is reported among the oats. Mrs. Webster Miller and daughter Ina are visiting their grandparents, Mr. and Mrs. James Plaz. Early Tuesday morning a terrific wind and rain storm came from the south, and for about an hour we were served with enough wind and water to last for some time. Many shade trees and outbuildings were demolished. At this time no particular damage has been reported. There will be no services at the Congregational church for two weeks. The pastor is to have a vacation. This is the first vacation after nearly twenty years of active work in the ministry. He will spend the time at Delavan Lake. Rev. and Mrs. C. W. Dennis have been entertaining Mr. and Mrs. R. Rapp and daughter, May, of Humboldt, Iowa. Mrs. Rapp is a sister of Mrs. Dennis. They are soon to take their departure for Evansville, Brooklyn and Superior. A telephone dispatch to Rev. Dennis announces the death of an aged aunt of Mrs. Dennis, Mrs. Wealthy Parker, of Hebron. A number of the Grovites have been at Delavan Lake, staking out their encampment claims which they intend to occupy during the coming assembly at that place.

CYCLONE CAUSES GREAT DAMAGE

SEVERE WIND STORM PASSES
OVER THIS REGION.

Great Injury Done to the Crops—Railway Travel Impeded—Beloit and Broadhead Severely Stricken—Rumors of Loss of Life at Delavan Prove Untrue.

The storm of Tuesday afternoon and evening did much damage in the country round about Janesville. The rain of the afternoon was preceded and accompanied by a violent wind, which destroyed much property, prostrating the growing crops in every direction. The rain descended in torrents, swelling the streams to torrents and washing away embankments and bridges, while large sections of railway tracks were washed away, delaying the arrival and departure of trains.

Washouts on Railroads.
There was a large washout on the Northwestern road near Evansville, and passengers on the evening train for that city were compelled to stay in Janesville over night. The train went north by way of Jefferson Junction, thence by way of Madison to St. Paul. On the St. Paul road considerable damage was done. The limited reached the city by way of Belvidere, and was several hours late.

Reported Damages.
Late last evening it was reported that a pleasure steamer had been swamped on Delavan Lake, and all on board, eighteen in number had perished. Up to a late hour today the report could neither be verified nor disproved, as all telegraph and telephone wires were down. It was also stated that similar accidents had occurred at Lake Koshkonong and Lake Geneva, but owing to the interruption in communication no details could be obtained.

Gangs of men were engaged this morning in repairing the damage done to telegraph and telephone wires, and before night all are expected to be in working order.

Considerable hail fell during the afternoon, and grain of all kinds was beaten to the ground. Much of the small grain not yet harvested was badly damaged, and corn was riddled by the pelting of the hail and considerable of it prostrated by the wind. Tobacco has suffered severely, several farmers in this vicinity reporting their crop almost a total loss.

Damage at Beloit.
At Beloit trees were blown down in every portion of the city and the wind played havoc with the electric light, fire alarm and telephone wires. There is not a street that is passable because of fallen trees and tangled wires. Several business blocks were unroofed, including the Clinchy building and Goddard & Allen's factory. Several store windows were broken in Mrs. Reiter's clothing store. A smokestack was blown down at the Fairbanks, Morse & Co's works and a horse was killed by a live wire.

There are a few casualties. A two-year-old child of Mrs. M. H. Carr was badly cut by falling glass.

A box car on the St. Paul road was loosened and ran nearly a mile before the wind.

Struck by Lightning.
Lightning struck the barn on the farm of David Auklin, south of Broadhead, killing three cows, injuring a horse and knocking down all the live stock. The two hired men, who were milking the cows, were rendered unconscious, the cow that one of them was milking being killed. The barn was set on fire, but the heavy rain put it out.

No Disaster at Delavan.
At a late hour this afternoon The Gazette obtained communication with Delavan, and learned that the disquieting rumors of loss of life on the lake there were without foundation. None of the guests at the lakeside hotels were missing, and the reported capsizing of a pleasure steamer was doubtless the creation of a disordered brain. Communication was also had with other lakes with which the region is dotted, none of which report disasters greater than the uprooting of barns and the destruction of trees, fences and crops. The reported loss of life at Delavan and elsewhere, is therefore, unworthy of belief.

Destruction at Beloit.

Beloit, Wis., July 20.—[Special]—One of the worst wind and rain storms that ever struck Beloit took place yesterday about a quarter to five. At about 4:30 the sky had every appearance of a tornado. A great deal of damage was done by the wind. Mr. McAlpine's grocery in McKey's block was badly damaged, the large glass windows being smashed in places. Mr. Reiter's clothing store's glass doors were also smashed. A large chimney in the Carpenter block was blown down. George E. Sanger's horse was killed by an electric wire. The roofs of the Beloit bicycle factory on Pleasant street, and Oliver's cigar factory on State street were entirely blown off. A number of trees that have stood for years on School street and Broad street were blown to the ground, and nearly every tree on St. Paul avenue was blown down. A lady while going over one of the crossings was lifted into the air and blown several feet. Nearly every store on State street was damaged either by broken windows or awnings blown down. This storm is one of the worst that Beloit has experienced in years. There was no thunder or lightning, but heavy wind and rain. There were very few yards in which there were trees, that one at least was not blown down. The farm house

JACKSONVILLE BOYS DON'T
KNOW WHEN THEY'LL MOVE

Joy Was Brought to Them by a Visit From the Paymaster—Their First Impulse After Getting Money is to Enjoy a Square Meal—Gossip of the Camp.

Camp Cuba Libre, Jacksonville, Fla., July 15.—Absolute uncertainty rules the camp as to movements. The reported outbreak of yellow fever in Cuba will render caution necessary in the further transferring of troops. The fall of Santiago will necessitate no further transplanting of volunteers and the investment of Porto Rico is an uncertainty, so far as we are concerned. Transports are reported here, ready for our loading.

It is funny the number of rumors that gain circulation. From experience we have learned the lesson of placing small credence in what we hear and the man who has a story to tell now says a little formula, before commencing, that "one private told another private who told me that colonel (or major or any old officer) so and so says—"

Should he neglect saying it a friendly foe will promptly supply it, and in addition a gentle cry from all listeners of one, two, three, four—pip!

The paying of the men is an interesting affair in more ways than one. They do not get much, but what they do get seems an awful lot to them, and for days after signing the payroll they watch anxiously for the happy day. The men fall in very promptly when called for and are reformed in alphabetical order. That sends "A" Company the first of this regiment to draw their salaries which they do by marching in a long line to one of the field officers' tents, where a paymaster with crisp bills and new coins hands them their pitance, and it is a study of human nature to see the different ways in which the men receive and go away with their share. Can you imagine the first thing a man thinks of? It is his stomach, and half or over of the commands go to restaurants for a change—an enjoyable change—from the camp fare.

Lawyer Matheson, of Janesville, sends an acceptable check for five dollars. It is appreciated by the boys and will be applied to the use of any of our men, who may have to send to the hospital, to supply a better ration than the government furnishes. This is only a private measure. I trust we will have as few men in the hospital in the future as we've had in the past. Not one man in the Division and none over two days in the regimental hospital tent, which is called sick in quarters.

The boys who brought stringed musical instruments have a hard time with broken strings. It is so very damp evening, and dry and hot day times, that it costs a small fortune to keep the instruments in good order.

Private Ludtke is one of the corral guard. About 500 mules need watching, and more arrive today. A stampede would be a serious thing.

St. Augustine parties this week will include Corporals Brown and Hall, Sergeant Schmitt, Privates Irish, Klenow, Litzkow, Imman, Farmer, Sheldon and Reynolds.

Saturday and Sunday are good days for the boys. Orders are light and the 5 pass a day order is broken and up to 20 passes per company issued.

Friends of Privates Cunningham, Stewart, Knipschid, Karney, King, Granger, and Lewis can imagine them doing the town tomorrow, as they are on the list for passes.

Corporal Collins is very busy with his camera, and succeeding admirably in his photos.

Lieutenant Bloedel and Corporal Nott go on a fishing expedition tomorrow.

Private Church has made many friends down town that treat him royally.

Chicago parties who have been in the city of late report that Mr. Stevens got the gold fever while a resident of the Windy City, and with several others decided to try his lot in the land of buried treasure. Prior to his removal from this city to Chicago, Mr. Stevens was engaged in the leaf tobacco business, being associated with Register of Deeds O. D. Rowe.

WISCONSIN TOBACCO MARKET

Good Trading Results From the Effort to Clear Up the Stock.

Edgerton, Wis., July 20.—The tobacco section has witnessed some lively trading the past few weeks, while the buyers are endeavoring to clean up the remnants of the '97 crop. The closing prices promised to be the largest paid during the season. It is estimated there is scarcely more than 2,000 cases now remaining in growers' hands, and these will be hurried out and secured if they can be bought at from 8 to 10 cents. Wisconsin leaf has come into prominence of late as a desirable type of tobacco for export, and almost unlimited quantities will be taken abroad this year at better prices than heretofore paid for this class of leaf. Low grades are bringing higher prices than have ruled before in years. Fillers especially are being set after by exporters with great avidity. Several thousand cases of recent purchases have been delivered at the warehouses during the past two weeks that have brought growers from 7 to 8 cents. But even at these figures the tobacco has netted the farmers but little in advance over the price of bundle tobacco sold six months ago, as the shrinkage amounts to half a cent or more per pound. Several transactions among packers exceeding 50 cases each are reported, usually passing to large holders having an export outlet. The new crop is coming along satisfactorily, though the warm, dry weather of late had commenced to pinch. Local showers have fallen over the tobacco section the past two days, with occasional patches of hail doing some damage to the most forward fields.

The shipments out of storage reach fifteen carloads, 785 cases for the past week from this section to all points. During the week 786 cases of cigar leaf were exported from New York.

THREATENING FIRE AT BELOIT

Factory Was Badly Scorched at the Noon Hour Today.

Beloit, Wis., July 19.—[Special]—A dangerous fire broke out in the tool factory of O. H. Healey at 12:30 today. The fire broke out in the top story of a three story stone building, and was confined to the upper story. The factory manufactures small tools, and at present was very busy. It employs about twenty-five persons. The loss to the building is \$1,000; machinery and stock considerable, but not estimated.

ORDERS SENT TO SAMPSON.

Peremptory Instructions Go from Washington.

MUST CO-OPERATE WITH MILES.

Major-General Compton's That the Navy Was Held Back His Proposed Invasion of Porto Rico—Miles Troops with the Expedition.

Washington, July 20.—Notwithstanding the failure of Gen. Miles to get away from Guantanamo Monday, the officials of the war department express conviction that he will land 3,500 men on Porto Rican soil before the end of this week. The entire expedition is said to be in motion, and as the advance guard under the personal direction of Gen. Miles has but two days' voyage before it to reach the selected landing place the hoisting of the American flag on the island cannot long be deferred.

Army officers, including Gen. Miles, hold the navy responsible for the delay which has occurred in leaving Guantanamo. Peremptory orders have been sent forward from Washington to Admiral Sampson to start his expedition at once.

Gen. Miles' advance force consists of Gen. Garretson's brigade of volunteer infantry, including the Sixth Illinois and the Sixth Massachusetts. Light batteries C and M of the Seventh artillery, which started from Tampa several days ago, are to meet him off Mole St. Nicholas. These batteries are the first in the American army to be equipped exclusively with smokeless powder, and were selected by the commanding general on this account.

QUIET AT MANILA.

Rear Admiral Dewey Reports an Entirely Satisfactory State of Affairs.

Washington, July 20.—After the cabinet meeting Tuesday it was stated by members of the cabinet that a dispatch had been received from Rear Admiral Dewey reporting a satisfactory condition of things at Manila.

The reading of the message, it was said, caused considerable satisfaction to the president and cabinet. The message is understood to have contained allusions to the attitude of the German admiral at Manila, which Admiral Dewey reported to be far from offensive and aggressive as had been represented.

There is no doubt that the government feels much easier over the Philippine situation and frank statements are made that there is no danger of strained relations.

Germany and the United States appear to understand each other thoroughly in the Philippine business, and it is felt here that whatever annoyances have been caused to Admiral Dewey through the actions of German naval officers are distasteful to the government at Berlin.

One thing that gave considerable satisfaction to the president and his advisers, according to a cabinet officer, was the knowledge that Dewey's dispatch was carried from Manila to Hongkong by a German warship. This, it was agreed, showed that the relations between the Americans and Germans at Manila had not become strained.

WILL NOT INTERVENE.

European Powers Fear to Precipitate Anglo-American Alliance.

London, July 20.—The Vienna correspondent of the Times, discussing the advent and probable operations of Commodore Watson, says:

"It is taken for granted that America will punctiliously observe the obligation of international law. There will, therefore, be no legal ground for European protests, and intervention without legal justification is practically excluded by the certainty that Great Britain will support the United States, while the powers are not likely to risk hastening the conclusion of the Anglo-American alliance by any attempt to hinder or coerce the United States."

"Disappointment with the policy of the Spanish government is growing here and it is beginning to be believed that Spain can be convinced of the absolute necessity of suing for peace only by fresh disasters. A great surprise was occasioned here by the news that the odds at Santiago were largely on the side of the Spaniards."

Stands by Shafter.

Washington, July 20.—Admiral Sampson will get no prize money for the capture of the fourteen Spanish vessels found in Santiago harbor when the town was taken by the American forces. The naval department claimed the vessels and endeavored to put prize crews aboard. Gen. Shafter resisted the contention, and refused permission to let the naval officers and men take possession of the vessels. The matter came up before the cabinet Tuesday, and President McKinley decided that the vessels were captured by the army. The president directed that the warships be added to the navy and that the merchant vessels be turned over to the war department as transports.

More Men Are Needed.

Washington, July 20.—Fairly good progress has been made with the recruitment for the volunteer army under the president's second call for 75,000 volunteers. The plan adopted by the war department was to recruit all the volunteer organizations in the army up to their maximum enlisted strength before entering upon the recruitment of additional troops. The total number of men required to fill

according to the last returns the total enlistments under this plan are 27,519 men.

Must Have Porto Rico First.

Washington, July 20.—President McKinley wishes to have possession of Porto Rico before beginning negotiations for peace. This explains in part the haste in getting the new army of conquest away. It is the president's desire to be in a position to maintain Spain has no further claim on the island. He evidently intends it shall come under the dominion of the stars and stripes, and he means to wrest it from Spain by force in order to make it easier to agree on terms of peace.

Santiago Ripe for an Epidemic.

Santiago, July 18, via Kingston, Jamaica, July 20.—Gen. Shafter has had a thorough examination made of the sanitary condition of Santiago. It was found that although there are at present but six cases of yellow fever in the city in addition to two suspects, the town is ripe for an epidemic. Santiago and Rio Janeiro are considered the greatest fever-breeding centers in the world. The town lacks every sanitary feature at its best, and now, after two months' siege, leaving it dirty and repellent, it is a veritable pest-hole.

Spain May Court-Martial Toral.

Madrid, July 20.—The papers announce that the cabinet council Tuesday was occupied with the capitulation of Santiago de Cuba. Ministers expressed surprise that Gen. Toral had included the whole military division of the province in the surrender, and Capt. Gen. Blanco has been asked to send details. When these have been received the question of the court-martial of Gen. Toral will be submitted.

To Deport Spanish Troops.

Santiago de Cuba, July 18, by boat to Playa del Este, July 20.—Gen. Shafter expects that the Spanish troops will embark for Spain before next Sunday. Spanish ships now in the harbor available for use as transports are the Mexico, which can carry 1,000 men; the Reina de Los Angeles, the Mortera and the San Juan, each capable of carrying 600 men.

Inquiry for Volunteer Army.

Washington, July 20.—Information has reached the war department that notwithstanding the medical examination prior to mustering in, men have been enlisted in the volunteer army who should have been rejected as unfit for military service. The adjutant-general has issued an order directing a systematic inquiry, with a view to eliminating such men from the organizations by the medical officers.

Four Ships Were Destroyed.

Havana, July 20, via London.—The bombardment of Manzanillo by American warships lasted four hours. Three thousand five hundred projectiles were fired, after which the Americans withdrew. Three steamers of the Menendez line were destroyed. The gunboat Centinela was burned. Three Spaniards were killed and fourteen wounded.

Explains the Irene Incident.

Berlin, July 20.—The Vossische Zeitung, referring to the dispatch from Cavite regarding the Irene incident, says it shows that the action of the German warship was merely a refusal to recognize the Philippine insurgents as belligerents. The paper adds that there is nothing to justify the talk of a conflict between the Germans and Americans.

Blockade Is Partly Raised.

Washington, July 20.—Acting Secretary Spaulding has telegraphed instructions to collectors on the Atlantic coast allowing them to clear American or neutral vessels with supplies and provisions for Guantanamo or other ports in Spanish territory in possession of the military or naval forces of the United States.

Five Spanish Prisoners Die.

Portsmouth, N. H., July 20.—There are five new mounds in the little burying ground on Seavey's island, where the Spanish prisoners are being buried. Three men of the Oquendo died in camp Tuesday morning and were buried at 11 o'clock. One of the other deaths occurred at the hospital, and the other at the camp later in the day.

Madrid Suppresses All News.

London, July 20.—Owing to the severity of the censorship at Madrid the London morning newspapers are quite without Madrid dispatches, except brief messages sent by way of France. The Madrid papers themselves are without dispatches from Paris, London, or Havana. Even the Spanish provincial papers get nothing from the capital.

Seized Under Arrest.

Santiago de Cuba, July 18, via Playa del Este, July 20.—Sylvester Seovil, a newspaper correspondent who was arrested for striking Gen. Shafter, was taken to Siboney on the tug Colon under a small guard. He may be tried here, or Gen. Shafter may decide to send him as a prisoner to the United States for trial.

To Blockade All Porto Rico.

Washington, July 20.—A proclamation will be issued shortly by the president extending the blockade, now confined exclusively to the port of San Juan, to the entire coast line of Porto Rico.

Troops Sail for Philippines.

San Francisco, Cal., July 20.—The transport Pennsylvania with the First Montana regiment and 300 recruits for the First California sailed Tuesday for Manila.

LATE NEWS BY TELEGRAPH.

MOVE FROM THE TRENCHES.

Gen. Wheeler's Division Sent to the Hills.

WILL SOON GO TO PORTO RICO.

Most of the Troops Are to Be Returned from Cuba to the United States—Insurgents Not Allowed to Enter the City of Santiago.

Santiago de Cuba, July 18, by boat to Port Antonio, Jamaica, July 20.—Gen. Wheeler's division of dismounted cavalry, including Roosevelt's rough riders, has been moved from the trenches before the city to the hills in the rear, preparatory to embarking for service in Porto Rico. Little that is definite can be learned here regarding the expedition, as the officers have no information on the subject. They have an impression that only the cavalry are to participate in the movement, and that all the other American troops will be returned from Cuba to the United States when the regiments of immunes arrive to garrison the city.

The volunteers in the Spanish army, who are residents of Cuba, believing that they are to be sent out of the island, are growing restless, and may prove troublesome.

The medical officers who have made an inspection of the city render a decidedly adverse report as to its sanitary condition. They found 1,747 sick soldiers in the military hospital, but only six of these were suffering from yellow fever. The local physicians say that next month will show more sickness than is found at present. Shoney has been quarantined against the army because of the yellow fever there, but Gen. Shafter says that this regulation is only temporary.

Gen. McKibben, military governor of Santiago, has established a thorough system of patrolling the city. The Cubans are very angry with the Americans because they were not permitted to enter the city in force after the capitulation and looted the houses. The Spanish soldiers plundered many of the business houses the day before the surrender. The merchants are still in much alarm from the Spanish soldiers and the prowling insurgents, and have asked Gen. McKibben to post guards in front of their stores. The Spanish soldiers are now all out of the city, having been placed in camps just west of El Caney to remain until placed on transports to make their return journey to Spain.

EQUAL RIGHTS TO ALL.

President's Proclamation Surprises Spaniards and Cubans.

Washington, July 20.—In his instructions to Gen. Shafter regarding the military occupation of Santiago, President McKinley has taken both the Spaniards and the Cubans by surprise. The Spaniards who looked for selfish arrogance that would rob them of their property will find that they may have their same municipal officers executing more just and humane regulations than they ever before enjoyed.

The Cuban insurgents have, on the other hand, discovered that their American allies do not intend to turn over to them this fair old Spanish city for pillage and plunder, for revenge, or for self-glorification. President McKinley in his instructions followed the rule of the most enlightened and Christian nations in regard to the military occupation, but he has gone beyond these, reducing the revenues that have been levied by Spain, at a time when these revenues are to be applied to the expense of the war. He has so far as possible lifted from the people a large part of the taxation upon their imports, and has given to Santiago revenue schedules more moderate than were in force under Spanish rule.

The president, in his proclamation, has demonstrated to the people of Cuba and to the world that this is a war for the sake of humanity, and that this first great victory of the army is followed by humane consideration for the people, and more just and equitable government than they have ever before enjoyed, even in times of peace. The army of the United States has carried freedom from exorbitant taxation into Santiago, then, and it will give independence to Cuba.

Pope's Hopes for the Cubans.

Madrid, July 20.—The Rome correspondent of the Imperial telegraph that if a plebiscite is resolved on to fix the fate of Cuba the pope will advise the Cuban Catholics to vote for an autonomous regime under the joint protection of Spain and the United States, both nations guaranteeing a loan for the organization of the Cuban administration.

Boston Building Collapses.

Boston, Mass., July 20.—A part of a four-story block on Sullivan Square, Charlestown, collapsed last night and a number of persons went down in the ruins. All were taken out more or less injured, with the exception of Patrick Hennigan, whose dead body is undoubtedly in the basement, with half the building on top of it.

Emile Zola Has Left Paris.

Paris, July 20.—M. Zola, sentenced to a year's imprisonment and to pay a fine of 3,000 francs for libeling the officers of the Esterhazy court martial, unexpectedly left the city Tuesday. The anti-Dreyfus papers make a sensation of his departure, declaring that he fled to avoid his impending arrest under the judgment of the assize court.

FAVOR COAST FORTIFICATIONS.

Certain Experts Consider Them Better Than Warships for Defense.

Washington, July 20.—Military and naval experts say that several important lessons in connection with ordnance and fortifications are furnished by the campaign against Santiago.

It is pointed out that the long contention as to the relative merits of land fortifications and warships as a means of coast defense has been pretty well settled by recent operations. When Admiral Sampson was chief of the ordnance bureau he held that the most effective way of protecting coasts was by means of warships. It is said, however, that the Spanish defense of Santiago harbor has demonstrated that coast fortifications are better. The batteries of Morro castle and San Juan, aided by the mining and torpedoing of the harbor, prevented the American squadron from entering and this despite the fact that the Spanish guns were in no sense fit for fortification armament.

It is said by some of the experts that if Morro had possessed large modern guns like those protecting New York and Boston it would have been able not only to defend Santiago but to have done serious damage to the attacking vessels.

Calmanera Is Surrendered.

Camp McCalla, July 20, via Playa del Este, Guantanamo Bay.—A launch from the Marblehead went up the bay this Tuesday to Verteyna del Toro, opposite Calmanera, and gave formal notice to the Spanish commander of the surrender of Gen. Toral's troops, together with the conditions of capitulation. A limited time was fixed for hauling down the Spanish flag over Calmanera. The flag was hauled down at once. From Spanish sources it is learned that the total force in Guantanamo and Calmanera is about 5,000, of which number, however, only about 3,000 are fit for service, the others being disabled by sickness or wounds.

Powder Works Blown Up.

Hannibal, Mo., July 20.—The separating house at the Hercules powder works, located twelve miles below this city, on the St. Louis, Keokuk and Northwestern railroad, has been blown up as the result of the acid becoming heated. Two employees were in the building, but they had warning and escaped before the explosion occurred. The building was totally demolished. No estimate of damage has been made as yet, but the principal loss will be the closing of the plant. Only glass powder and similar explosives were manufactured at the plant.

Six Killed in Oakland, Cal.

Oakland, Cal., July 20.—The California Fuse works was blown up by a murderous Chinaman at early this morning. Six deputy sheriffs who were trying to arrest the murderer were killed. The dead are: Charles White, son of Sheriff White; George Woods, D. C. Cameron, Gus Koch, constable; Harry Cramer, J. J. Lerri. The Chinaman had fortified himself in the magazine and blew it up when an attempt to arrest him was made.

Battleship Pelayo Damaged.

Marseilles, July 20.—A steamer which has just arrived here reports having sighted on July 16, off the coast of Tunis, the Spanish fleet commanded by Admiral Camara. As the steamer passed the battleship Pelayo a column of smoke suddenly issued from her, and from the fact that a cruiser had to take the Pelayo in tow, it is evident that the most powerful warship of Spain has been damaged.

Iowa Postoffice Robbed.

Webster City, Iowa, July 20.—The postoffice at Radcliffe was robbed just before daylight Tuesday. Postmaster P. E. Drake, who was sleeping in the office, was seriously wounded by the burglars, who had entered and exploded the safe with dynamite. They then rifled it of its contents. No estimate can be placed on the amount taken from the safe, as Postmaster Drake is too badly wounded to make one.

Shafter Asks for Immunes.

Washington, July 20.—General Shafter has asked the war department to hurry forward the regiments of immunes for service at Santiago City and vicinity, in order that there may be a minimum of danger of further infection of our troops from the fever which prevails there.

To Make a Survey of Corea.

Yokohama, July 20.—It is reported that the United States minister to Corea, H. N. Allen, has concluded an agreement at Seoul with the Korean minister for the engagement of American experts to survey the country with a view of building roads, bridges and other public works.

Great Damage in Michigan.

St. Joseph, Mich., July 20.—One of the worst windstorms known in years visited this section of the country at 7 o'clock Tuesday morning. It ruined thousands of dollars' worth of fruit trees, loaded down with fruit and it is feared that the grain loss will be greater than on fruit.

Comes with Four Tons of Gold.

Seattle, Wash., July 20.—The North American Trading and Transportation company's steamer Ronoke arrived here Tuesday afternoon from St. Michael, Alaska, with 240 passengers and with about four tons of gold, which reduced to dollars amounts to between \$1,500,000 and \$2,000,000.

WILL ASK TERMS OF PEACE.

Spanish Cabinet Is Tired of the Struggle.

GEN. BLANCO TO NEGOTIATE.

Vote of the Ministers Was Unanimous—Press Censor Allows the Dispatch to Be Sent—Nothing Is Known of the Matter at Washington.

Madrid, July 20.—Premier Sagasta and his cabinet have decided to sue for peace. This decision was reached unanimously, after a conference lasting several hours. When the cabinet meeting was concluded the members refused to talk of the business that had been transacted, and Prime Minister Sagasta and the ministers of foreign affairs and public works continued the conference. When this was ended the announcement was made that it had been decided to end the war by asking for terms.

Capt. Gen. Blanco will be given the power to negotiate the terms of withdrawal of the Spanish forces from Cuba.

It is significant that the censorship raised no objection to the dispatch announcing that the cabinet had decided to seek peace.

Spain Does Not Want Peace.

Washington, July 20.—The cabinet talked about peace prospects Tuesday, but did not find any tangible basis for them. "We have not received the slightest intimation that Spain will make overtures toward peace," said one of the cabinet officers. "The stories that we have had such intimations are untrue. We concluded that Spain did not want to sue for peace, and that we did not want to hear anything from her on the subject."

No Fever at Tampa.

Tampa, Fla., July 20.—There has been a suppressed but intense agitation in Tampa for the last three days, caused by the reports which have gone abroad to the effect that one or more cases of yellow fever are now in existence in this city. A thorough investigation has been made, and it is stated positively and authoritatively that there is not a case of yellow fever in Tampa nor anywhere in the state, so far as is known by the state and city health authorities.

Polveja the Coming Man.

Madrid, via Biarritz, July 20.—Gen. Polveja is believed to be the coming man in Spain. The queen regent summoned him to Madrid. Although she wishes Sagasta to negotiate the terms of inevitable peace, she will change advisers unless better progress is made. Polveja was former governor general of the Philippines, and has never been in politics. He is willing now to enter the political field if summoned.

Treasurer's Big Steal.

Springfield, Miss., July 20.—The temporary receivers of the Hampshire Savings bank of Northampton have given out a statement to the effect that the defalcation of Treasurer Lewis Warner amounts to \$100,000. With the \$240,000 which Bank Examiner Ewer estimates was taken from the Hampshire County National bank, Warner's peculations amount in the aggregate to \$340,000.

Karl's Clover Root Tea for constipation. It's the best, and if after using it you don't say so return the package and get your money. For sale by People's Drug Co.

Sunderland Is Flame-Swept.

London, July 20.—Half the business houses in Sunderland were destroyed or damaged by fire Monday night, involving a loss estimated at \$2,000,000.

JUDGE FOR YOURSELF.

Which Is Better, Try An Experiment Or Profit by a Janesville Citizen's Advice?

Something new is an experiment. Must be proven to be as represented. Be successful at home or you doubt it.

The statement of a manufacturer is not convincing proof of merit. But the endorsement of a friend is. Now, supposing you had a bad back. A lame neck or aching one. Would you experiment on it? You will hear of many so-called cures. But they come from far away places. It is different when the endorsement comes from home.

Easy to prove that it is so. Home endorsement is the proof that backs every box of Donn's Kidney Pills.

Read this case: Mr. Samuel Griffin, of 203 Locust St., journeyman carpenter, says: "I had a severe attack of la grippe some time ago, and as the result of this sickness a weakness of the kidneys set in. The secretions from those organs were greatly disordered, and annoying much at night, and I seemed to have limited control of them. After finishing the treatment my kidneys were so strengthened that I could sleep all night without being disturbed. I am better now than I have been for years, and give all credit to Donn's Kidney Pills for bringing about this result."

Donn's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster Millburn Co., Buffalo, N. Y., sole agent for the United States. Remember the name, Donn's and take no substitute.

Only One Excursion to the Ever Beautiful Delta of Wisconsin.

Sunday, July 21, will be a red letter day for the lads and lassies, for they may then enjoy themselves to their heart's content amid the wild scenery of the Delta at Kilmour. Without a doubt this is the most wonderful bit of scenery in the western country. There is a trip of miles in a steamer, a tramp through Witches' Gulch and through Cold Water Canon one mile under ground. Round trip fare only \$2. Train leaves Janesville over the Chicago, Milwaukee & St. Paul R'y. at 7:30 a. m. Sunday, July 21; leaves Kilmour at 6:30 p. m.; arrive here at 10:30 p. m.
